

## MEGALINE Fi

### Full Inverter technology serving communities

- Optimized performances for very large volumes
- Stainless steels structure
- Full Inverter technology
- Twin rotary compressor
- WiFi control

	50	70	100
Swimming pool volume	Contact our experts for a detailed analysis		
COP air 15°C /water 26°C	4.93~7.52	5.05~7.65	4.99~7.58
Noise level at 10 m (db(a))	<40	<50	<42

#### Limitless Efficiency

The Megaline Fi is adaptable to all swimming pools, even with the biggest volumes. Connect several MEGALINE Fi to multiply their heating capacity.

**HEAT PUMP WARRANTY

## The POOLEX + :

Large color display  
control panel

WiFi Connection for  
remote monitoring

Anticorrosion stainless  
steel structure

Large operating range  
up to -15°C

Large connections for  
professional swimming  
pools

## The Megaline Fi is part of the new generation heat pumps dedicated to communities.

With its Full Inverter Technology, the Megaline Fi modifies its output accordingly. Both compressors and fans adjust their frequencies in real time to only supply the necessary power. Consequently, electrical consumption drops as well as sound pressure to let the heat pump go unnoticed.

The touch screen control panel allows for a more intuitive use of the Megaline Fi. You can also download the Smart Life application to control the heat pump wherever you are.

Equipped with a stainless steel structure and a powder-coated galvanized steel casing, the Megaline Fi is ready to meet

any challenge. Furthermore, its new generation Mitsubishi compressors use R32 gas, a more environmental friendly and more efficient refrigerant than the R410.

Its connections for large volumes enable it to naturally adapt itself to the flow constraints found with public equipment.

Confident of the reliability of its product range, Poolstar extends its warranty to 3 years on the heat pump, 5 years on the compressor and 15 years on the heat exchanger against any corrosion.
